Tips For A Smooth Move

Plan And Pack Early

Make to sure to buy plenty of boxes and begin packing as soon as you can. Time will run out sooner than you think. Be sure to purchase enough supplies. A typical 3-4 bedroom home will use approximately 70-120 boxes. We will happy to help you estimate the amount of materials that you will need for your size move. Do not worry about overbuying, we will purchase back any unused boxes, provided you have a receipt.

Reserve Early

If you are moving yourself, be sure to reserve your vehicle at the earliest possible date. To avoid any problems, make a reservation deposit at least two to four weeks prior to your scheduled move date.

Notify of Change of Address

Don't forget to notify friends, magazines, charge accounts, etc of your change of address. Use change-of-address cards. This should be done approximately three to four weeks prior to your move. Also notify the Post Office of your forwarding address.

Discontinue / Inform Utilities

At least two weeks prior to your move date, schedule your utilities (water, electric, gas, telephone, cable, etc) to be turned off and/or changed.. Be sure to schedule them to be turned on at your new residence as well.
